

**// Principal Report 2023-24 //**

Kepping in view the need for higher education in the Chhuriya block of Rajnandgaon district on the sacred land of Chhattishgarh state, Government College Chhuriya was started on 14 October 1989, this is the only college in the Chhuriya block.

The College was started with 10 students, currently 1110 student are studying. At present 08 regular Assistant Professor and 06 Guest Lecturers are working in the college. Last year 05 Assistant Professor have been appointed by the Government through Public Service Commission. In the non-teaching staff, 03 third class and 03 fourth class employees are working.

A unit of Rashtriya Seva Yojna is running in the college under which regular activites and 7-day special camps are organized. Through the camp, personality development, role of volunteers in de-addiction, social cooperation and values of goodwill and practical education are provided. By organizing a camp in village Pinkapar in the year 2023-24, the volunteers created a distinct identity through their work.

A unit of Red Cross Society is operating in the college through which health check-up camps, blood donation camps, public awereness camps and health awareness programmes are organized from time to time.

NCC unit is running in the College, at present 29 SW girls and 32 SD boys are registered. personality development is being done in the student through NCC training through participation in national service and adventure activities etc. Mr. Ushyant Kumar and Mrs. Deepika Dhurve have been selected as NCC officers who will go to NCC Training Academy for training in the near future.

Through the Internal Quality Cell of the college, one-day workshops are regularly organized for the overall personality development of the student and job guidance. A new auditorium of the college has been constructed in this session.

Two research papers of Dr. Sushma Choure (Netam) of the college were published in the UGC care List.

Dr. H.S. Bhatia Assistant Professor holds a Ph.D. degree. Dr. H.S. Bhatia is working as a research Guide. His 06 research papers have been published in the UGC Care List.

The college was evaluated by NACC in which the college has received B grade. Last year, the examination result of the college was excellent.

There is a lack of some amendments in the college, this is the demand of the student, towards which I am drawing your attention-

1. It is necessary to construct a boundary wall in the college. cattle etc. enter the college, due to which the college staff and student have to face problems.
2. Bicycle stand is required to keep bicycles for student.
3. It is very important to have the road from the main gate to college.
4. It has been almost 34 years since our college was established. Till now, PG classes are being conducted in only one subject, Hindi literature. student have to take admission in other colleges for PG in other subject. Therefore, it is essential to start postgraduate classes in Economics, science, sociology, Geography, M.Com. and M.Sc. (Physics, Chemistry, Zoology, Botany) in this college.
5. A very important requirement is that the student who study in our college have to go to Government Dr.B.R. Ambedkar College Dongargaon to appear in supplementary examination. since there is no supplementary examination center in our college, they have to go to Dongargaon college. The centre for semester examination is also the same, due to which student have to face many difficulties. keeping in mind the interest of the student in the studies, we will take the trouble of fulfilling the requirement of supplementary examination centre.
